ABOUT TROPHY CLUB

Trophy Club's unique history helped shape the Town into the beautiful, safe, well-maintained community oasis that it is today. Over the years Trophy Club has developed from a small, golf-centric, rural getaway for Dallas executives and retirees into a premier North Texas residential community. As the first master-planned community in Texas, Trophy Club features over 1,000 acres of parks, 36 holes of golf winding through neighborhoods and environmentally secure woodlands, an efficient local government and so much more. Much of the Town's appeal is the wide range of home choices and resident participation in community activities, schools, churches, clubs, organizations, and Town advisory groups.

The Town's departments and divisions' purpose is to support the Town's mission: To maintain Trophy Club's standing as a premier residential community by protecting and promoting the interests of its residents, businesses, and property owners. We do this by being an exemplary model of safety and security, infrastructure and development, beautification, administrative and financial transparency, and employee development.
